

Serum Star

- Good storability
- Regular and high tuber setting
- Suitable for all soil types

Characteristics

Variety	Serum Star
Maturity	Late
Tuber – Shape	Round
Tuber – Flesh colour	White
Tuber – Skin colour	Yellow
Yield	Very good
Destination	Starch processing
Blight – Foliage	6
Blight – Tuber	6
Common scab	8
Leaf roll	7,5
A - Virus	6
X - Virus	6
Yn - Virus	7
Drought	8
Nematode – Ro 1,4	9 / rs 0,0 %
Nematode – Ro 2,3	9 / rs 0,2 %
Nematode – Pa 2	9 / rs 0,2 %
Nematode – Pa 3	7 / rs 3,0 %
Nematode tolerance	-
Wart disease - Fysio 1	Resistant
Wart disease - Race 2/6	Resistant
Wart disease - Race 18	9
Fertilization Advice N	140-180 kg/ha (incl. soil stock)
Fertilization Advice P	Based on soil analysis
Fertilization Advice K	180-220 kg/ha
Planting distance (35/55 mm)	33 - 36 cm
